ABOUT ME

Enthusiastic B.Tech student in AI & ML with knowledge in Python, data science, and machine learning algorithms. Eager to gain hands-on experience in innovative projects and contribute to impactful solutions in the field of artificial intelligence. Skilled in problem-solving, logical thinking, and adapting quickly to new technologies, with a strong interest in research and practical applications of AI. Passionate about continuous learning, teamwork, and building intelligent systems that create real-world value.

EDUCATION

2023-2027

Annamacharya
Institute of technology
and sciences

Bachelor of Engineering (AIML)

Bachelor of Engineering (AIML)
Currently pursuing B.Tech in Artificial Intelligence and Machine Learning with the aggregate of 8.56 CGPA at Annamacharya Institute of technology and sciences, focusing on AI & ML, and data-driven technologies.

2021-2023

Sri Chaitanya Junior
College

INTERMEDIATE

INTERMEDIATE
Completed Intermediate under State Board with a focus on Mathematics, Physics, and Chemistry with 76.2 percentage.

2020-2021

Sri Chaitanya EM High
School

SCHOOL

Completed Schooling under State Board with a GPA of 10.

SKILLS

- Python
- C
- Java
- HTML
- JavaScript
- SQL

PROJECTS

AI-Based Sign Recognition System | Python, OpenCV, Machine Learning

- Developed a system to recognise hand signs using computer vision techniques.
- Implemented real-time gesture detection and classification.
- Improved communication accessibility using AI-based recognition.
- Achieved accurate and fast sign prediction using trained models.

AI Smart Attendance & Engagement System

Developed an AI-powered Smart Classroom Monitoring System using Python, OpenCV, and MediaPipe to automate face-recognition based attendance, analyze student engagement in real time, generate attendance analytics dashboards, and trigger alerts for low attendance and classroom noise, improving accuracy and efficiency in academic monitoring.

CERTIFICATIONS

- Ignite X 1.0– Wadhvani Foundation (May 2025): Awarded certificate for innovation skills in ideation
- Cloud Computing based on Amazon Web services.
- Prototyping and Business Modelling
