SUMMARY

Motivated B.Tech graduate with foundational knowledge in Python, SQL, and HTML. Possess strong analytical and problem-solving skills with the ability to learn new technologies quickly. Seeking an opportunity to apply technical knowledge, contribute to organizational goals, and grow professionally in a dynamic work environment.

PROJECTS

Exploratory Data Analysis on Flipkart Product | Python, BeautifulSoup, Pandas, Matplotlib, Seaborn

- Scraped e-commerce product data from Flipkart using BeautifulSoup to extract key attributes such as price, rating, and category etc.
- Performed cleaning, and preprocessing using Pandas to ensure data accuracy and consistency.
- Conducted Exploratory Data Analysis (EDA) to uncover trends, correlations, and customer buying patterns.
- Designed interactive visualizations with Matplotlib and Seaborn to communicate insights effectively.
- Delivered data-driven insights supporting better product pricing, category management, and customer engagement strategies.

Grocery Store Management Analysis Using SQL

- Designed a relational database for a grocery store using SQL, including ER modeling and table creation for customers, products, orders, suppliers, employees, and categories.
- Developed optimized SQL queries using joins, aggregations, subqueries, and filters to analyze customer behavior, product performance, and sales trends.
- Generated business insights such as top customers, best-selling products, category-wise and supplier-wise revenue, and employee sales performance.
- Performed data analysis and reporting in SQL Workbench, demonstrating strong understanding of relational database concepts and query optimization.

SKILLS

- Programming: Python
- WebTechnologies: HTML
- Databases: MySQL

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Annamacharya Institute of Technology & Sciences

2023- pursuing

CGPA: 8.99

Intermediate Education (M.P.C)

Narayana Junior Kalashala

2021- 2023

Percentage: 95

Central Board of Secondary Education (10th)

Penchal Reddy High School

2020- 2021

Percentage: 93

INTERNSHIP

Data Science- Pantech e Learning

April 2025- May 2025

- Cleaned, preprocessed, and analyzed datasets using Python (Pandas, NumPy) and performed exploratory data analysis (EDA) to identify trends and patterns.
- Wrote SQL queries to extract and analyze data from databases and created data visualizations using Matplotlib and Seaborn to communicate insights effectively.

CERTIFICATES

- Introduction to Prompt Engineering- IBM
- Software Engineering Basics for Everyone- IBM
- Excel for Beginners- Davidson College (edX)

WORKSHOP

Python Using AI Workshop

- Create interactive visualizations in Python in minutes.
- Debug Python code in seconds using AI.
- Write code in Python by using AI in seconds.
